

2026 AcqDemo CCAS Assessment Guidance (Pay Pool 4443)

*Note: Both employees and supervisors must complete their respective annual assessments in CAS2Net by **30 September 2026***. No extensions are permitted.**

Part I: Employee Self-Assessment Guidance

This section ensures that employees write compliant, impact-focused self-assessments that align with their contribution plans.

1. Formatting & Structure

- **W-R-I Model:** All self-assessment entries must utilize the strict **What-Result-Impact (W-R-I)** format:
 - **What:** Describe the specific contribution made during the cycle (FY26).
 - **Result:** Detail the immediate outcome or deliverable.
 - **Impact:** Quantify or qualify the broader effect of the contribution on the organization's mission and objectives.
- **Contribution Plan Alignment (Coming in 2027):** Explicitly annotate the correlation to your approved Contribution Plan objective (e.g., JA1, CT2, MS3) immediately after the "What" statement of each entry.
- **No Copy-Pasting / Duplication:** Do not duplicate self-assessments from previous years, and do not use identical W-R-I statements for multiple factors.

2. Quantity Requirements

- **Minimum of Nine (9) Total Statements:** Employees must provide a minimum of **three (3) distinct W-R-I statements** per each of the three standard appraisal factors:
 1. Job Achievement and/or Innovation (JA)
 2. Communication and/or Teamwork (CT)
 3. Mission Support (MS)

3. Addressing Mandatory Objectives (If Applicable)

- **Supervisory Objective:** If your plan contains a mandatory supervisory objective:
 - Place it under the **Job Achievement and/or Innovation (JA)** factor *before* any W-R-I statements.
 - Write it in **paragraph form** (do not use W-R-I format).
 - State how many military members or civilian employees you supervise, along with the number of contractors you manage, using this exact format:
"I supervise [X] military, [Y] civilians, and manage [Z] contractors."
 - Address how the supervisory objective was met in a descriptive paragraph.
 - *Note: This paragraph does not count as one of the three required W-R-I statements for this factor.*
- **Acquisition Coded Positions:** If you occupy an acquisition coded position:
 - Include a self-certification and currency statement at the beginning of the **Mission Support (MS)** factor (as your 1st statement).
 - Use clear, non-W-R-I phrasing to state the exact currency of your certification and CLPs. This statement does not count toward the three required W-R-I statements.
 - **Compliance Templates (Choose or modify the one that matches your status):**
 - *Met/Current:* "I am fully certified in BUS-CE (Advanced) as of 20Aug24 and have completed 80 Continuous Learning Points (CLPs) for cycle ending 30Sep26."
 - *In-Progress:* "I am partially certified in BUS-FM (Practitioner) and on track to achieve full certification by my due date 6/30/27. I am current on my CLPs, having earned 45 points for the current cycle ending 9/30/26."
 - *Waiver:* "I am partially certified in BUS-FM (Advanced). I have an approved waiver in place until my due date of 31Mar27, and am current on CLP requirement with 50 of 80 points, CL end date 31Dec26."
- **DoD FM Certification Coded Positions:** If you occupy a DoD FM Certification coded position:

- Include a self-certification and currency statement at the beginning of the **Mission Support (MS)** factor (as your 1st or 2nd statement).
- Use clear, non-W-R-I phrasing to state the exact currency of your certification and CLPs. This statement does not count toward the three required W-R-I statements.
- **Compliance Templates (Choose or modify one that matches your status):**
 - *Met/Current:* "I am fully certified at DoD FM Level 2. I have met my requirement of 40 CETs for the current cycle ending September 30, 2026,"
 - *In-Progress:* "I am partially certified at DoD FM Level 1 and am on track to complete my certification requirements by the due date of March 31, 2027. I am current on my annual requirement of 40 CETs for this cycle."
 - *Active Cycle:* "I am fully certified at DoD FM Level 3. I have currently completed 65 of 80 required CETs and am on track to complete the remaining 15 CETs by my due date of September 30, 2026."

Part II: Supervisor Narrative Assessment Guidance

This section ensures that supervisors write highly defensible, structurally compliant narratives that justify their recommended scores.

1. Mandatory Narrative Structure

- **Narrative Format:** Write in a clear, objective narrative format. The W-R-I structure is not required for supervisors.
- **Mandatory Lead-In Statements:** Supervisors must begin their written narrative for **each factor** with one of the following exact lead-in phrases corresponding to the recommended numerical score and EOCS:
 - "Meeting expected contributions." (Indicates scoring at EOCS. Must explain why the EOCS is met with clear and precise specifics, avoiding flowery language. Include contributions the employee omitted).
 - "Exceeding expected contributions." (Indicates scoring above EOCS. Must explain why the factor exceeds the EOCS with clear, precise, and objective specifics).
 - "Partially meeting expected contributions." OR "Not meeting expected contributions." (Indicates scoring below EOCS. Narrative

must clearly describe inadequate contributions or unmet expectations. To ensure no surprises, the supervisor must have documented feedback sessions, MFRs, or an active CIP throughout the cycle).

2. Content & Validation Requirements

- **Complete Objective Picture:** Summarize and validate the employee's achievements, adding significant contributions or details omitted by the employee.
- **Objective Tieback (Coming in 2027):** Annotate the exact tieback to the corresponding Contribution Plan objectives (e.g., (JA3, MS2)) at the end of the narrative block for each factor.
- **Mandatory Objectives Concurrence:** Address any mandatory employee objectives (Supervisory, Acquisition, and/or FM Coded Positions), explicitly stating your concurrence or non-concurrence with the employee's self-certification.
- **No Personality Assessments:** Ensure all supervisor comments are strictly based on contributions and results accomplished during the rating period, not on personal characteristics.

3. Performance Scoring & PAQL Formatting (see examples in appendix)

- **DAF PAQL Statement:** Include a short 1-to-2 sentence statement for each factor addressing how the employee's quality of performance aligns with the DAF performance scoring guidance.
- **PAQL Lead-In:** Begin this performance-focused section with the prefix "PAQL :".
- **Bold Formatting:** Mark the entire PAQL statement in **bold** text within the CAS2Net narrative field.

4. Scoring & Calibration Compliance

- **Recommended Scores:** Recommend and input all three mandatory metrics per factor in CAS2Net:
 - **Categorical Score** (e.g., 3H, 4M, 3M) consistent with the employee's broadband level.
 - **Numerical Score** matching the selected categorical score range (e.g., 83, 85).
 - **PAQL Score** (Level 5 - Outstanding, Level 3 - Fully Successful, Level 1 - Unacceptable).

- **Validation Checks:**

- Verify that the difference between the recommended OCS and the employee's EOCS is mathematically correct and fully justified by the narrative.
- *VoP Calibration:* If recommending a score above the employee's Value of Position (VoP), confirm whether it represents a sustainable contribution (warranting a CRI) or a one-time "Big Rock" event (which must be paid out as a CA/Bonus instead).
- *Unacceptable Ratings:* If recommending a PAQL of 1 in any factor, verify that corresponding feedback has been documented in the midpoint review and that formal Performance Counseling or CIP has been initiated with local Civilian Personnel Office coordination.

- **Midpoint Documentation:** Verify that the midpoint discussion has been officially documented in CAS2Net with the date and method of communication.

Appendix: PAQL Statement Examples

Supervisors must use the "PAQL:" prefix and write these statements in **bold** text in CAS2Net. Use these examples as formatting and syntax guides:

Example 1: Level 5 (Outstanding)

PAQL: Joe's quality of performance exhibited in achieving his contribution results substantially and consistently surpasses the factor-specific expected contribution criteria and his contribution plan goals and objectives. He delivered exceptional, flawless results ahead of expected timelines, directly optimizing resource utilization and enhancing team capabilities.

Example 2: Level 3 (Fully Successful)

PAQL: Johnny's performance consistently achieves, and sometimes exceeds, the factor-specific expected contribution criteria and his contribution plan goals and objectives. His work products generally required minimal revisions,

demonstrating consistent attention to detail and reliable completion of all assigned milestones on time.

Example 3: Level 1 (Unacceptable)

PAQL: James' performance fails to meet the expected contribution criteria and the required results for the goals and objectives set forth in his contribution plan for the appraisal. His work products required continuous and extensive revisions, which negatively impacted the team's ability to support critical program deadlines.
