- e. Department of the Air Force AcqDemo Program Management Office "Position Upgrade Policy Guidance", dated February 2024¹

2. PURPOSE: This document provides Department of the Air Force (DAF) Civilian Acquisition Workforce Personnel Demonstration Project (AcqDemo) guidance for SAF/FMC and the Air Force Cost Analysis Agency (AFCAA). This document supplements existing AcqDemo policy and Department of Defense (DoD) guidance for local implementation. These business rules and guidelines will be reviewed annually, updated as appropriate and provided to the workforce no later than 31 March of each calendar year. If necessary, changes may be made to the Business Rules on an ad hoc basis outside of this annual review cycle; however, no changes may occur after 15 Jun 2025, unless there is an organizational mission need approved by the Department of the Air Force (DAF) AcqDemo Program Management Office (PMO).

3. SCOPE: This document applies to all AcqDemo Personnel Policy Board (PPB) members, Pay Pool Manager (PPM), and Sub-Pay Pool Managers (SPPMs), Pay Pool Panel (PPP) members, employees, and their supervisors (to include military personnel who supervise AcqDemo employees) in Pay Pool 4443 and SAF/FMC and AFCAA.

4. CONTRIBUTION-BASED COMPENSATION AND APPRAISAL SYSTEM (CCAS) BACKGROUND:

- a. Defense Acquisition mission excellence and efficiency has long been a priority within Congress and the DoD. The purpose of the AcqDemo personnel system is to demonstrate the effectiveness of the Acquisition Workforce (AWF) can be further enhanced by allowing greater direct managerial control over personnel functions and, at the same time, expanding the opportunities available to

¹ Formal DAF policy number for this guidance is forthcoming

employees through a more responsive and flexible personnel system.

- b. Reference (a) states AcqDemo requires a cost disciplined approach to maintain cost control. Including a continued comparison with the Government-wide system ensures an effective balance between salary cost, value of position, and personnel management benefits. This provides checks and balances throughout AcqDemo's CCAS process while continuing to provide the flexibilities available in this alternative personnel system.
 - c. CCAS is the performance management system for AcqDemo. It is a contribution-based appraisal system which goes beyond a performance-based rating system as it measures the employee's contribution to the mission of the organization. Basic pay adjustment decisions are based on contribution to the organization and value of the position. Whenever the term "basic pay" is used in this document, locality pay is not included unless stated otherwise.
- 5. ROLES AND RESPONSIBILITIES:** All pay pool panel participants, administrators, advisors, and facilitators are required to act in a professional manner and must refrain from accessing confidential information and discussing confidential information except as required to perform their official duties.
- a. **Personnel Policy Board (PPB):** SAF/FMC chairs the PPB. The PPM and SPPMs are designated to participate as members of the PPB.
 - (1) The PPB provides the signed AcqDemo Business Rules to the DAF AcqDemo Program Management Office (PMO) annually each year by March 31.
 - (2) The pay pool manager will present to the chair the results of the Final Pay Pool and the chair approves awards over \$10,000.
 - b. **Organization Pay Pool Management Advisor (PPMA):** SAF/FMCX Workforce Development will serve as the Subject Matter Expert on all AcqDemo related issues and provides advice to the PPB.
 - (1) Guidance to senior level officials such as:
 - (a) **Classification** (e.g., Position Requirements Documents (PRDs), PRD consolidation, other classification efficiencies etc.) program authorities, execution and guidelines.
 - (b) **Staffing initiatives** (e.g., recruitment, hiring, promotions, etc.) authorities, execution and guidelines. Staffing guidelines should include considerations to assist supervisors in determining when non-competitive promotions should be initiated.
 - (c) **Pay administration** (e.g., determine value of position in coordination with organizational leadership, hiring and promotion pay setting, cash differentials, non-CCAS awards, etc.) program authorities, execution and guidelines.

- (d) **Employee Development** (e.g., academic degree and certification training, sabbatical proposals, etc.) program approvals, execution and guidelines.
- (2) Review the **Contribution and/or Performance Improvement** processes for consistency across the organization.
 - (a) Track organization's Grievances, Contribution Improvement Plans (CIP), Memos for Record (MFR) in Lieu of CIP, Overcompensated (Region A) and or employees who receive a Performance Appraisal Quality Level (PAQL) one (1).
 - i. If any of the above continue past 6 months after the initial supervisor communication date to the employee, report outstanding items on the first of each month to DAF AcqDemo Program Management Office (PMO) through the closure of the action item.
- (3) Provide **CCAS guidance** (e.g., pay pool funding, CCAS appraisal process, pay pool(s) composition (see Attachment B, 2025 Pay Pool Structure), Accelerated Compensation for Developmental Positions (ACDP), CCAS grievances (bargaining unit) or reconsiderations, etc.) to rating officials (ROs) prior to pay pools.
- (4) Address communications to the PPM from employees (i.e., concerns, issues, etc., received).
- (5) Regularly communicate with PPP members, supervisors and non-supervisory employees regarding pay pool matters (e.g., meetings, agenda topics, call for concerns and issues from employees, etc.).
- (6) Notified when a SPPP member requests to send a proxy for the SPPP deliberations; provides a recommended decision to the SPPM.
- (7) Regularly review training completion for Designated Classification Officials (DCOs), PPP members, AcqDemo employees and their supervisors.
- (8) Appoint the organization's AcqDemo trainer and provides the organization's annual training schedule to the DAF AcqDemo PMO no later than 30 May of each year.

c. **Pay Pool Manager (PPM):** The PPM is SAF/FMC and is responsible for pay pool management and the following CCAS processes:

- (1) Ensures procedures and policies are exercised in a consistent manner throughout their pay pool process.
- (2) Ensures communication and notification requirements are completed in a timely manner by supervisors and ROs:
 - (a) Issuance of midpoint reviews and closeout assessments;
 - (b) Complete and submit end of year assessments of employee contributions with recommended categorical scores, numerical scores, and PAQLs; and
 - (c) Provide feedback to employees after the completion of the pay pool process.

- (3) Provides overall guidance to pay pool, to include guidance for the end of year pay pool deliberations.
- (4) Establish contribution criteria to designate additional discretionary salary and/or additional discretionary award amount(s) deviating from the “automatic algorithm” in the CCAS spreadsheet.
- (5) Appoints the PPMA and Pay Pool Administrator (PPA).
- (6) Approves pay flexibilities as delegated in Section 14.COMPENSATION and Attachment D
- (7) Serves as final decision authority on Sub-Pay Pool Panels (SPPPs) and SPPMs recommended compensation adjustments (final Overall Contribution Score (OCS), Rating of Record (RoR), and execution of annual pay adjustment) in the Final Pay Pool.

d. Final Pay Pool Panel: The PPM serves as the lead official in the final pay pool that convenes to discuss the recommended results from the (SPPP) deliberations. Membership in the final pay pool panel consists of the PPM and SPPMs. The PPM is responsible for the following during the panel:

- (1) Reviews SPPPs recommended employee compensation adjustments for fairness and consistency with the contribution scores and across SPPPs. At discretion, may adjust the SPPPs recommendations.
- (2) Coordinates the approval of any adjustments to the value of position with the employee’s organization.
- (3) Approves, disapproves, or adjusts all supervisory and team lead differentials.
- (4) Distributes any additional discretionary CRI and/or CA money resulting from the “automatic algorithm” in the CCAS spreadsheet.
 - (a) May consider recommendations from the SPPMs and/or PPMA’s regarding distributions of additional CRI or CA adjustments.
 - (b) Ensure all available money is spent (to include any discretionary money) and results in a zero remainder, with no under- or overspending; or notify the DAF AcqDemo PMO that any remaining discretionary money will be rolled over to non-CCAS awards.
- (5) Proration of CA is not an option in the pay pool process.
- (6) Ensures SPPMs notify SPPPs of inconsistencies or adjustments to recommended OCS scores and/or PAQL ratings.

e. Sub-Pay Pool Managers (SPPMs):

- (1) Senior management officials appointed by the PPM and supports the PPM in carrying out their AcqDemo responsibilities.
- (2) Leads the SPPPs by seeking input and concurrence from SPPP participants regarding **ALL** employee deliberations.
- (3) Recommends sub-pay pool results to the PPM and participates in the final pay pool.
- (4) Considers PPMA recommendation and approves any requests to send

a proxy for a Sub-Pay Pool Panel (SPPP) member for the panel deliberations.

f. Sub-Pay Pool Panels (SPPPs):

- (1) Members are the rating officials of the employees in the sub-pay pool.
 - (a) All supervisors will to attend their employees' sub-pay pool(s).
 - (b) Support the SPPM in carrying out their AcqDemo responsibilities.
 - (c) One sub-pay pool will comprise of all civilian supervisors and their administrative staff.
 - i. This precludes supervisors from reviewing each other's CCAS input.
 - (d) Any individual who will serve as proxy for a panel member within a SPPP must be coordinated with the PPA and approved by the SPPM prior to the individual's attendance.
 - (e) May not participate in payout deliberations or decisions regarding or determining their own or their family member's written narratives, categorical or numerical factor scores, OCS, PAQL, or RoR if in the same sub-pay pool.
 - (f) Generally, Overall Contribution Scores of 94 and above are attainable for positions with levels of responsibilities and opportunities for consistent strategic contributions in positions such as Technical Advisors, Branch Chiefs, and Division Chiefs; however, NH-04s who are consistently providing contributions of strategic value are also eligible. Scores at the top of the NH-03 broadband are generally attainable for estimate/analysis leads and those with comparable responsibilities.
- (2) Prior to the sub-pay pool deliberations, members will read the written narratives of **ALL** employees, including both employee's and supervisor's assessments and recommended categorical and numerical factor scores, OCS, PAQLs, RoRs and prepare their personal notes for discussion in the sub-pay pool.
- (3) During the sub-pay pool deliberations, members will review **ALL** employee and supervisors written narratives and recommended scores (contribution and performance); adjust scores as necessary to ensure parity and consistency across the SPPP. See additional information provided in paragraph 9.b.
 - (a) A positive delta OCS demonstrates increased levels of contributions from the Expected OCS (EOCS) and must be documented in the narratives.
 - (b) Verify any factor score less than the EOCS has been documented and the employee is aware and has received communication regarding their contributions from the RO.
 - (c) Ensure supervisors have formal disciplinary action(s) and/or written performance counseling(s) on an employee who scores in the A Region (normally a negative four (-4) or more OCS) or receives a

one (1) PAQL. Written documentation will consist of MFRs, and other supporting documentation signed/acknowledged by both the supervisor and employee.

- (d) Endorse or recommend modification of their employees' request for time off award (TOA).
- (4) If agreement cannot be reached during deliberations, then the SPPM has the final deciding authority.

g. Supervisors:

- (1) All supervisors (military and civilian) of AcqDemo employees, whether or not, they themselves are under AcqDemo, must complete *AcqDemo 101* and *CCAS for Supervisors* training via the AcqDemo DoD website training section, <http://acqdemo.hci.mil/training.html>. Upon completion of each DoD training class, the supervisor must notify the PPA of the class and the completion date.
- (2) Supervisors joining AcqDemo for their first appraisal cycle must attend the *CCAS Life Cycle* and *Pay Pool Process for Supervisors* training classes during their first cycle; attendance is recommended during subsequent cycles.
- (3) Supervisors have a responsibility for the following:
 - (a) Reviewing respective SAF/FMC & AFCAA's goals and priorities at the start of the appraisal cycle with their employees.
 - (b) Ensuring their employees have an approved contribution plan based on applicable PRD within 30 calendar days of the start of a new cycle or change in position. This includes updating the plan as appropriate if there was an increase in score after final approved pay pool results.
 - (c) Monitoring and documenting employee progress and providing coaching/ feedback throughout the appraisal cycle.
 - i. Addressing contribution and performance concerns/issues immediately upon identification to include any feedback, MFR, or initiation of a CIP.
 - ii. If an employee's contributions warrant a negative (by factor or overall) OCS, the supervisor should have correlated feedback provided to the employee during the cycle and in both the midpoint and/or annual supervisory narrative. See also paragraph 12 for additional information.
 - (d) Providing mentoring for career development.
 - (e) Receiving each employee's self-assessment, describing their own contributions, at the midpoint of the appraisal cycle, preparing the midpoint supervisory assessment and conducting a formal Midpoint Review with each employee.
 - (f) Receiving each employee's self-assessment, describing their own contributions throughout the year for each factor, at the conclusion of the appraisal cycle.

- i. Verify employees used the What-Results-Impact (W-R-I) format and responded to any mandatory objectives (Acq-Coded objective including continuous learning, DAWIA, ACDP, and supervisory objectives, etc.)
 - ii. Return assessment to employee when the proper format was not followed.
- (g) Preparing and completing a supervisory annual appraisal assessment narrative for each employee, and recommending categorical scores, numerical scores and PAQLs for each factor, for consideration by the pay pool (Reference b, Chapter 6, CCAS, Table 5 and 6 for PAQL criteria).
- (h) Providing additional input to supplement employee's self-assessment, as required, to support the AcqDemo pay pool process.
- (i) Ensuring no information relating to the CCAS scores is released to employees prior to the conclusion of the pay pool processes.
- (j) Ensuring employees fully understand the basis of the final CCAS categorical and numerical scores, OCS, PAQLs, and RoR, and how they correlate with the value of their positions so the appraisal details can be fully explained to the employee in the supervisor/employee communication of CCAS results.
- (k) Establishing and approving the CCAS Contribution Plan to include ACDP contribution, performance, and development criteria, objectives, and plans for an employee's ACDP assessment. May recommend an ACDP basic pay increase to an employee's basic pay commensurate with fully successful completion of training and higher-level, more complex work based on an employee's Contribution Plan and ACDP goals, objectives, expectations, and quality of performance for an ACDP Assessment and/or CCAS appraisal cycle.

h. Employees:

- (1) All AcqDemo employees **must** complete the *AcqDemo 101* and CCAS *for Employees* online training via the AcqDemo DoD website training section, <http://acqdemo.hci.mil/training.html>. Upon completion of the DoD training class, the employee must notify their supervisor and the PPA of the class and the completion date.
- (2) Employees joining AcqDemo for their first appraisal cycle **must** also attend the SAF/FMC's or DAF's *CCAS Life Cycle* training during their first appraisal cycle; attendance is recommended during subsequent cycles.
- (3) Employees have a responsibility and **must** participate in the following:
 - (a) Collaborating with their supervisor or RO to develop a contribution plan and understanding how to meet the contribution expectations identified during contribution planning.

- (b) Seeking feedback and guidance as needed throughout the appraisal cycle.
- (c) Preparing a Midpoint and Annual Employee Self-Assessment in accordance with these AcqDemo Business Rules and Guidelines and Reference d. Failure to follow the proper format may factor into SPPP deliberations.

i. Pay Pool Administrator (PPA):

- (1) SAF/FMCX Workforce Development serves as the PPA.
- (2) Executes all duties and responsibilities described in Attachment A - PPA Responsibilities and Workload.
- (3) Acts as the pay pool point of contact for both the Civilian Personnel community and management; administers PPP activities and employee reconsiderations; and maintain records in CAS2Net and other record keeping systems.
- (4) Attends each SPPP and the final pay pool to document decisions and work with the PPP spreadsheets.
- (5) Provides the AcqDemo Trainer a list of all new AcqDemo employees and supervisors within 30 calendar days after starting their entrance on duty.
- (6) Facilitates communications among SPPP members and between the pay pool, supervisors and employees.
- (7) Creates and modifies employee records in CAS2Net and ensures the integrity of the data within their respective pay pools to include maintaining the pay pool structure, hierarchy, and roles in CAS2Net.
 - (a) Initiates actions to corrects AcqDemo discrepancy reports within seven (7) days of receiving the report.
 - (b) Notifies the DAF AcqDemo PMO of discrepancy report corrective action plans within seven (7) days of receiving the report.
 - (c) Monitors employees under investigation to ensure the appropriate rating is documented.

j. Pay Pool Facilitator:

- (1) The SAF/FMCX Workforce Development is the pay pool facilitator and serves as knowledgeable advisor to the PPM. May be an organizational leader in the position of a management analyst, business manager, resource analyst, manager, or other individual engaged in personnel activities.
- (2) Oversees the pay pool process by providing the rules of engagement for the SPPP.
- (3) Attends each SPPP and the final pay pool to provide advice, to ensure consistency across the entire pay pool.
- (4) The person to whom the PPM turns to most frequently to ensure the key elements of AcqDemo are being discussed and implemented within the pay pool.

k. AcqDemo Trainer:

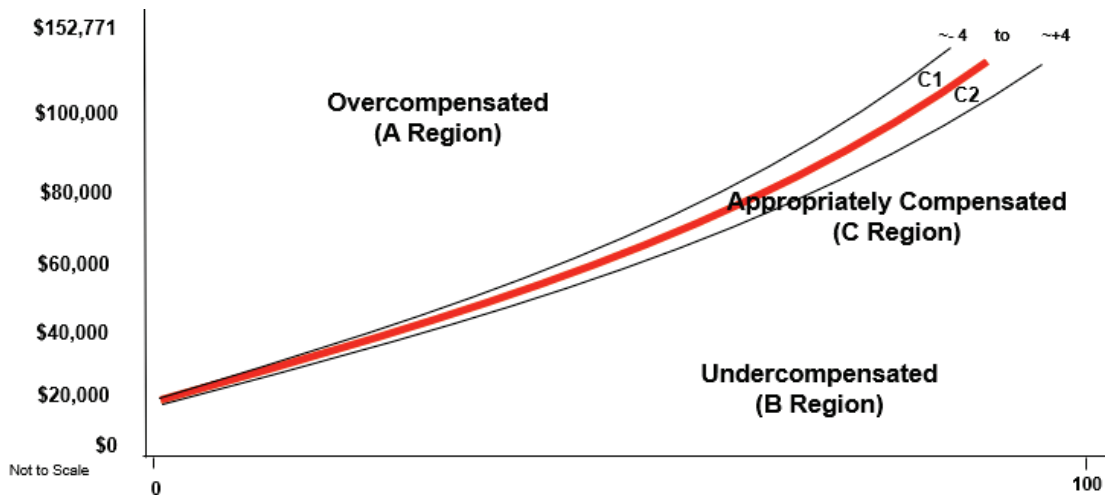

- (1) The SAF/FMCX Workforce Development is responsible for AcqDemo training.
- (2) Provides AcqDemo training for participating workforce members, including support staff, on an ongoing basis to ensure the workforce is knowledgeable on AcqDemo and up to par with any new changes or initiatives.
- (3) Conducts training for new supervisors and employees, including support staff, entering the demonstration project within a reasonable time of entering the position.
- (4) Publishes an annual schedule of AcqDemo training courses to the workforce.
- (5) Provides training completion information to the PPMA.

6. PAY POOL FUNDING:

- a. The FY2025 CCAS rating period is October 1, 2024 - September 30, 2025.
- b. The PPB will ensure funding levels are programmed through the Program Objective Memorandum (POM) years. Participating employees, regardless of career path, including those at the highest pay level within each respective broadband shall fairly and equitably share in the pay pools. The pay pools consist of the following three components: General Pay Increase (GPI), Contribution Rating Increase (CRI), and Contribution Award (CA). Eligibility for compensation is described and shown in the following chart.

Compensation Eligibility Chart				
Category	General Pay Increase (GPI)	Contribution Rating Increase (CRI)	Contribution Award (CA)*	Locality Pay (See Note 1)
Overcompensated (A Region)	Partial	No	No	Yes
Appropriately Compensated (C1 Region)	Yes	No	No Exception – Yes, if meets EOCS	Yes
Appropriately Compensated (C2 Region)	Yes	Yes – Up to 6% (See Note 2)	Yes (See Note 5 and 6)	Yes
Undercompensated (B Region)	Yes	Yes – Up to 20% (See Notes 3 and 4)	Yes (See Note 5 and 6)	Yes
Notes: 1. Basic pay plus locality pay may not exceed Executive Level IV basic pay. 2. May not exceed upper rail of the Normal Pay Range (NPR) for employee's OCS or maximum salary for current broadband level. 3. Over 20% requires PPM approval.				

4. May not exceed 6% above the lower rail of the NPR or the maximum salary for current broadband level.
 5. CA including CRI rollover, amounts up to \$10,000 require PPM approval.
 6. CA including CRI rollover, amounts over \$10,000 will be approved by SAF/FMC.
- *Total CA cannot exceed \$25,000.

- c. GPI: Funding will be allocated, if a GPI is approved for FY26. Employees who fall within the Appropriately, Undercompensated regions will receive the FY26 GPI. Employees who fall within the Overcompensated area (A Region) will receive a partial FY26 GPI, as determined by the PPM
- d. CRI Funding: Per Reference a, the minimum CRI funding is not less than 2.0 percent of our organizations total basic pay budget. The amount of CRI funding available is determined annually by the PPB. The CRI pay pool funding for the FY25 rating period is budgeted up to 2.4%. The Standard Pay Line (SPL) will be used as the rail position for FY26 CRIs. (Note: The CRI funding level may be subject to change in accordance with annual Federal and Departmental guidance.)
- e. CA Funding: Per Reference a, the minimum CA funding is not less than 1.0 percent of our organizations total adjusted basic pay budget. The amount of CA funding available to pay pool is determined annually by the PPB. The CA pay pool funding for the FY25 rating period is budgeted at 2.5%. Ninety percent of this funding will be set aside for the CAs during the CCAS process; and ten percent of this funding will be set aside for non-CCAS/incentive awards (i.e., on-the-spot, special act, etc.) throughout the year. The Upper Rail will be used as the rail position for the FY26 CAs. (Note: The CA funding level may be subject to change in accordance with annual Federal and Departmental guidance.)

- f. The minimum CRI can be set by the PPM for positive delta OCS on a case-by-case basis.
- g. Time Off Awards (TOAs) in lieu of CA.
 - (1) The PPM is the approving authority for TOAs.
 - (2) TOA requests are initiated by employees and endorsed by their supervisors through the pay pool panel process.
 - (3) CAS2Net is the preferred method for employees to request TOAs. In CAS2Net, employees will be given the option to consider TOAs as a preference for recognition over monetary compensation. Employees may request 0%, 50% or 100% of their CA to be paid as a TOA in lieu of their CA.
 - (4) The employees' CA converted to TOA may be redistributed as:
 - (a) The PPM will use the remainder CA for discretionary distribution during the pay pool. The dollars not distributed as discretionary will be added to the non-CCAS award amount available for incentive awards for the remainder of the fiscal year.
 - (b) The PPM will add to non-CCAS award amount available for incentive awards for the remainder of the fiscal year.
 - (5) Once approved, Discretionary CA may not be awarded solely to compensate for computed TOA hours.
 - (6) The employee's new hourly rate will be used to calculate the amount of TOA to be awarded.
 - (7) No more than 40 hours can be awarded in a single award as outlined in Reference c.
 - (a) If the calculated CA exceeds the value of 40 hours, the employee will receive the remainder as a CA.
 - (b) Additionally, no more than a total of 80 hours may be awarded as a TOA in any calendar leave year. If an employee receives a TOA outside of the CCAS process, the requested TOA may be subsequently reduced to not exceed the total limit.
 - (8) As stated in Reference c, TOAs are not transferable when the employee moves to another DoD component or to another Federal agency. Similarly, employees coming to DAF from another department or Federal agency may not transfer a TOA.
- h. Employees on retained rate in AcqDemo generally receive pay adjustments in accordance with 5 U.S.C. 5363 and 5 CFR part 536.
- i. New employees in AcqDemo without at least 90 consecutive calendar days immediately preceding the end of the current appraisal cycle will receive the full GPI, but are not eligible for a CRI and CA. Supervisors may submit awards outside of the AcqDemo processes in lieu of CA.
- j. Reemployed Annuitants are only eligible to receive a CA, if any CRI is awarded,

it will be rolled to CA.

7. CCAS and CAS2Net OPERATING RULES:

a. **Contribution Plans:**

- (1) Contribution Plans are required to be approved in CAS2Net within 30 calendar days of the start of a new cycle, change in position or appointment.
 - (a) Plans may be modified at any time throughout the cycle and revisits are encouraged; however, modifications are not allowed during the last 90 calendar days of the appraisal cycle.
 - (b) To be eligible for a payout, employees must be on an approved plan for 90 consecutive calendar days immediately preceding the end of the appraisal cycle (30 Sep). Exceptions will be considered on a case-by-case basis by the PPM.
 - (c) Supervisors will provide or inform the employee:
 - i. Where to find the factors and applicable broadband level descriptors so the employee knows their expected level of contribution and the basis on which their contribution will be assessed,
 - ii. The PAQL criteria,
 - iii. All factors are 'critical',
 - iv. How CAS2Net is used to document Contribution Plans, Midpoint Assessments and Annual Assessments with the method and date of communication between the supervisor and employee.
 - v. Include a minimum of 2 objectives per factor.
- (2) **Mandatory Objectives:** The following Mandatory Objectives will be applied as appropriate:
 - (a) **Supervisory Contribution Objective.** All supervisors will have the following mandatory objective inserted into their contribution plans:

Effectively supervises employees by practicing and complying with applicable Occupational Health and Safety rules and practices; Security requirements; fiscal/resource requirements/constraints; Change Management principles; and the Administration's and Department's recruitment and hiring reform initiatives. Ensure employees on AcqCoded positions meet required Continuous Learning Points (CLP) and certification. Conduct in person feedback (in person/TEAMS or Telecon) and document. Acknowledge and capitalize on employees' skills and perspectives. Administer Performance Management Program responsibilities, ensuring required communication and activities are accomplished in compliance with Program guidance and timeframes, and employees'

achievements are appropriately recognized. Support the Whistleblower Protection Program by responding constructively to employees who make protected disclosures under 5 U.S.C. 2302(b)(8); taking responsible and appropriate actions to resolve any such disclosures. Develop and implement initiatives designed to prevent harassment and other actions. Maintain a work environment allowing employees connect to AcqDemo's mission and contribute to their full potential. Ensure direct reports follow the AcqDemo Business Rules including the midpoint and annual assessments.

Each supervisor MUST in their annual self-assessment include:

- i. State how many Military/Civilians they supervise as 1st level and/or 2nd level supervisor along with the number of Contractors they manage (e.g., "I supervise 0 military, 10 civilians and manage 6 contractors").
- ii. Address how the Supervisory Contribution Objective was met in their first statement under the Job Achievement and/or Innovation Factor. This is in paragraph form (not in the W-R-I format). This does not count as one of the 3 required W-R-Is.

(b) **Acquisition Coded Positions.** All employees on acquisition coded positions will have the following mandatory objective inserted into their contribution plan: A self-certification statement identifying the state of their certification (e.g., fully certified, or partially certified and what plans for completion).

- i. Each Acq-Coded employee MUST address this mandatory objective in their first statement under the Mission Support factor in their midpoint and annual self-assessment. (e.g., I am on track to complete by XX date; I completed the certification as of XX date; I received a waiver until XX date)
- ii. A W-R-I format is not required for this self-certification statement.

(c) **DoD FM Certification Coded Positions.** All employees on DoD FM Certification coded positions will have the following mandatory objective inserted into their contribution plan:

A self-certification statement identifying the state of their DoD FM certification (e.g., fully certified, or partially certified and what the plans are for completion). Also the status of the maintenance of the earned certification via completing and recording the required Continuous Education and Training (CETs).

- i. Each DoD FM Certification coded employee MUST address

this mandatory objective in their second statement under the Mission Support factor in their self-assessment (e.g., fully certified, or not certified and your plans for completion) and if certified, what is your maintenance status of the earned certification).

iii. **A W-R-I is not required.**

b. Midpoint Assessments:

- (1) Approximately midway through each appraisal cycle (Mar/Apr), employees must complete a midpoint self-assessment using the **W-R-I** writing format. Failure to participate in the mandatory midpoint review signals the employee is not complying with program guidelines, which may affect final CCAS scores unless extenuating circumstances are identified.
- (2) Midpoint reviews are not required for employees new into AcqDemo after May 1; however, supervisors are encouraged to document feedback sessions in CAS2Net.
- (3) The supervisor completes a supervisory assessment and does not assign scores to the midpoint review.
- (4) The supervisor will meet with the employee to discuss progress of the contribution plan, areas needing improvement, assistance available, and expectations for the remainder of the cycle.
- (5) The supervisor must document the midpoint review discussion by entering the date and method of communication in CAS2Net.
- (6) A supervisory midpoint review assessment and feedback is not grievable.

c. Closeout Assessments:

- (1) Employees are entitled to input from all supervisors of record who observed their work during the rating period. A closeout is required upon a change of supervisor/employee (e.g., departs for another AcqDemo Organization or change in supervisor) no later than 30 calendar days after the event.
 - (a) Close out assessments not accomplished timely are reported by the PPA to the PPM.
 - (b) If an organization needs support for obtaining a closeout assessment, the PPA can request, through the chain-of-command, assistance from the DAF AcqDemo PMO.
- (2) A closeout enables the employee and supervisor to document contributions for partial year position assignments and does not include any scores. There are no minimum periods for a RO to complete a closeout.
- (3) When the supervisor or employee departs before the end of the appraisal period, supervisor will initiate a closeout assessment in CAS2Net for the employee to provide a self-assessment.

- (4) The supervisor must then document and discuss the closeout assessment with the employee; to include entering the date and method of communication in CAS2Net.

d. Annual Appraisal:

- (1) **Employees must** complete a self-assessment in the W-R-I format. The narrative should be accurate and concise describing their contributions. A minimum of 3 W-R-I statements per each of the three factors is required. Employees should not duplicate their self-assessments from year to year nor should they use the same W-R-I for multiple factors. Failure to comply with completing an annual appraisal self-assessment in the manner identified will be highlighted during the SPPP meetings and may affect final scores.
- (2) **Supervisors:** The supervisor of record on 30 September is responsible for completing each employees' annual appraisals and **must** provide information for each of the three factors, starting with one of the following Mandatory lead-in statements as stated below and are not required to be written in the W-R-I format:
 - (a) **Meeting expected contributions** (if meeting EOCS).
 - i. Exception – Awarding Very High Score (VHS) (105, 110, and 115)
 - a. May result in the supervisor recommending one or two factor score less than the EOCS for the OCS to calculate at the assessed overall contribution level.
 - b. The lead statement should state the employee is meeting or exceeding expected contributions for each of the three factors.
 - (b) **Exceeding expected contributions** (Score higher than EOCS in any factor). Supervisor must explain why the factor exceeds, provide clear and precise specifics (not flowery words). Include significant contributions the employee did not provide in their self-assessment.
 - (c) **Partially meeting expected contributions and/or Not meeting expected contributions. ****There should be no surprises to the employee.** **** (if below the EOCS)
 - i. Supervisor must expand on the employee's individual factor self-assessment.
 - ii. Supervisor must have documented feedback sessions throughout the cycle.
 - iii. Supervisor must ensure documentation has been completed, describing inadequate contributions and their assessment of how the individual is not meeting contribution and/or performance expectations when the individual has scored in the Overcompensated **A** region.

- (3) AcqDemo is a pay for contribution system considering how an employee performed while contributing to the mission. Supervisors should maintain consistency and consider these guiding principles when assigning categorical and numerical scores and determining quality of performance demonstrated when determining the PAQLs:
- (a) As employees move through higher broadbands, progression is expected to be more gradual due to the level of effort required to exceed the EOCS. The upper level of the broadband should be reserved for jobs of the highest responsibility and authority.
 - (b) AcqDemo ratings will continue to be based on employee contribution as assessed against the factors, descriptors and discriminators.
 - (c) Appraisals of employees not on board for the full evaluation year must be reviewed carefully. AcqDemo rewards contributions and the value/impact of them on mission accomplishment.
 - (d) Consider whether the annual contribution warrants a salary increase (i.e., responsibility at this increased level will continue) or is it considered a bonus event (i.e., responsibility at this increased level will **NOT** continue); this should be discussed in pay pools.
 - (e) Supervisors must provide concise feedback on contributions and impact on the organization within their supervisory assessment when an employee is given a negative score within any factor. (Exception; see 8.d.2.a.i)
 - (f) Supervisors, SPPM and the PPM must only consider matters impacting Contribution factors and outcomes in determining recommended and final ratings.
 - (g) Supervisors assess quality of performance demonstrated by employees as they achieve expected contribution results by assigning a PAQL (performance) rating for each factor. Categorical, numerical, and PAQL scores are derived from the same information no separate write-ups are required for performance. The PAQL criteria (Reference b, Chapter 6, Tables 5 and 6) requires supervisors to consider how well the employee met the factor-specific expected contribution criteria and the contribution plan goals.
 - (h) PAQLs are averaged to determine the RoR for the appraisal cycle. RoRs are used for the first retention factor in a Reduction in Force (RIF). A PAQL score of 1 for any factor results in an overall Level 1 Unacceptable RoR. Supervisors must provide written documentation of inadequate performance within their write-up for an Unacceptable (1) PAQL rating.

8. SUB-PAY POOLS:

Using sub-pay pools removes the obligation from the supervisor where they are solely

responsible for their employee's appraisal. Instead, the final rating, or OCS and performance RoR, is collectively decided by the SPPP, with the SPPPs doing most of the "heavy lifting" in making adjustments. The SPPP evaluates how the contributions and performance for each individual in the sub-pay pool has led to the accomplishment of the overall goals/objectives of the organization in support of the mission. The variety of organizations making up the sub-pay pool, ensures assortment in discussions when reviewing the mission accomplishments.

- a. Sub-pay pools will be composed of more than one Division and contain a sufficient number of employees to allow for comparisons of various contribution levels across the broadbands
- b. SPPP Members: Each SPPP member is expected to review all read ahead materials prior to the SPPP meeting.
 - (1) On the day of each SPPP meeting, panel members will review and discuss **"all"** appraisals as follows:
 - (a) Consider only contributions provided for the year being evaluated.
 - (b) Quality review and calibration of OCS and assessments.
 - (c) Ensure contribution level matches factor descriptors (e.g., 4M should show strategic contributions), and performance level meets expected contribution criteria and contribution plan goals.
 - (d) Use the Contribution Plan and both the employee and supervisor narratives in panel deliberations.
 - (e) Supervisor input must be based on contributions and results obtained by the employee during the rating period – **not** on the employee's personality characteristics.
 - (f) Look at like groups in turn with the same OCS (not deltas) across pay pool. They should reflect the same level of contribution.
 - (g) Voice any noted concerns or questions on employee or supervisor write-ups/scores.
 - (h) Modify scores/write-ups to align with SPPP decisions.
 - (i) Check that contributions are comparable, and the overall rack and stack of employees makes sense based on SPPP deliberations.
 - (2) Rating recommendations reviewed by the SPPP must contain sufficient information to justify the recommended rating; in other words, ratings should "stand on their own merit."
 - (3) If the panel cannot arrive at a consensus or disagrees with the supervisor's recommendations, the SPPM may direct the supervisor to provide additional information to support the OCS and RoR; justification must be added to the supervisory assessment in CAS2Net and provided within 48 hours.
 - (4) Review any awards, non-CCAS and TOA, paid during this performance cycle.
 - (5) Employees who received a salary increase (promotion (temporary or permanent) or new employee pay-setting) within 150 days of the end of

the cycle will receive their EOCS, unless substantial justification is provided.

- (6) Reemployed Annuitants must be rated during the CCAS cycle. Refer to paragraph 7.j regarding eligible potential pay outs.

c. CATEGORICAL RATING “VERY HIGH” SCORES (VHS):

- (1) Employees in the top broadband level of their career path are eligible to receive a VHS for each of their three factors.
- (2) The VHS is to give recognition to an employee for exemplary contributions and overall quality of performance; results are substantially beyond what was expected and warrant a score exceeding the top score for the highest broadband level in the employee’s career path.
- (3) CCAS Factor Descriptors/Discriminators. These narrative statements describe the critical content of jobs at each of the broadband levels. They are written to the high end of each broadband level (NH-IV = GS-15). The descriptors for the VHS are written at the mid-level (110) of the VHS range. Descriptors are not to be used individually to assess contributions but taken as a whole to derive a single evaluation for each factor.
- (4) A Categorical Rating “Very High” or scores of 115, 110, 105 (NH) will only be awarded to those employees with an EOCS of 96-100 (NH). Any assignment of these scores must have written documentation in CAS2Net on how the employee exceeds the broadband factors for the NH Level IV.
- (5) If an employee with an expected score of 100 receives a negative in any factor, they are not eligible for a “Very High” score; unless it is necessary to adjust a factor score to receive an appropriate overall score of e.g., 101, 102. (See exception in paragraph 8.d.(2).(a).i.)
- (6) Each occurrence of the use of the 105, 110, or 115 (NH) score will be reviewed separately by the SPPP and SPPM who will unanimously agree the ratings are justified. During the SPPP, the SPPM will resolve any ratings for which the panel members cannot reach agreement. In addition, all “Very High” scores will be reviewed by the PPM to ensure a consistent approach in application across the pay pool.

- d. Employees and/or supervisors who copy/duplicate statements from previous years end of year appraisals may have their factor scores impacted.

- e. Employees who fail to provide the minimum required 3 W-R-I’s or who fail to address any mandatory objectives may have their factor scores impacted.

9. CCAS REQUEST FOR RECONSIDERATION PROCEDURES:

The following process is to be used for Non-Bargaining Unit employees. Bargaining Unit

employees will follow the local union agreement process.

- a. Under AcqDemo, employees may request for reconsideration of their OCS – categorical and numerical scores, RoR - PAQLs, and the supervisor narrative assessment.
- b. If an employee chooses to ask for a reconsideration, they must meet with SAF/FMCX Workforce Development for guidance. The reconsideration process is documented in the CAS2Net Grievance Module. (See Reference d for further instructions)
- c. Requests for reconsideration submissions will address each factor identified for reconsideration and include any supporting documentation.
- d. Requests for reconsideration will be submitted in CAS2Net during our organizational reconsideration window. The period for our organizational window will be 28 Jan 2026 – 11 Feb 2026.
- e. SAF/FMCX Workforce Development will forward the reconsideration request to the RO via CAS2Net. The RO will review and consider the request, submitting a recommendation to the SPPM with any additional supporting information within 15 calendar days of receipt of the original request.
- f. SAF/FMCX Workforce Development will submit the reconsideration documentation to the SPPM via CAS2Net. The leader will render a decision within 15-calendar days. It is highly recommended the leader meet with the employee to explain their decision.
- g. If the employee does not accept the decision, they can ask PPM to render a decision.
- h. The PPM may accept the SPPM recommendation or reach an independent decision. In the event that the PPM decision is different from the SPPM recommendation, appropriate justification will be provided to the RO / SPPM and employee.
- i. If the employee does not accept the PPM decision, they may go to the SAF/FM for a final review. That decision will be final and not subject to further review.
- j. Any changes to the official appraisals and/or resulting compensation (GPI, CRI, CA, PAQLs, and RoR) will be coordinated with the DAF AcqDemo PMO to update the employee records, including documenting the CCAS Salary Appraisal Form and entered into all appropriate records. Copies of all corrections will be provided to the employee and RO.

- k. Attachment C provides a diagram illustrating the reconsideration/grievance processes.
- l. PPM may grant an extension of the reconsideration period when there are extenuating circumstances.

10. SPECIAL SITUATIONS:

- a. Employees who are promoted to a higher broadband level post-cycle (October 1, 2025 – January 11, 2026) will be rated against their position prior to the promotion. Employees promoted post-cycle are eligible to receive CRI and CA (as outlined in Reference b, Appendix I – RO Change and Employee Movement Matrix). Calculated CRI will be rolled over to CA. (For employees promoted during the cycle, see paragraph 9.b.(5))
- b. Employees who are reassigned post-cycle are fully eligible for CRI and CA (as outlined in Reference b, Appendix I – RO Change and Employee Movement Matrix).
- c. **Employees Away From Duty/Workstation.** When an employee cannot be evaluated readily by the normal CCAS appraisal process due to circumstances taking the individual away from normal duties or duty station (e.g., long-term full-time training; active military duty; extended sick leave; qualified family and medical leave; full time union representation; leave without pay, an extended rotational/developmental assignment, civilian deployments, emergency relief efforts, absence without leave (AWOL), etc.), the PPA, with the advice of the supervisor, will document the special situations in CAS2Net. Per Reference b, Chapter 6, CCAS, Presumptive Rating, the PPA will then determine the Presumptive Status options to use, and with consideration of any special legal entitlements such as the Uniformed Services Employment and Reemployment Rights Act (USERRA) which may affect that determination.
 - (1) This will also include employees away for Long-Term Full-Time training (LTFTT) e.g., DSLDP, Eisenhower, Air War College (AWC), etc.
 - (2) Employees on LTFTT may participate in the pay pool if they have a minimum of 90 calendar days of contributions during the CCAS cycle and an approved contribution plan. It is the supervisor's discretion to obtain approval from the PPM to include the employee in the SPPP deliberations.
- d. **New Hires.** Employees with less than 90 consecutive calendar days as of September 30, 2025, in AcqDemo will be considered in parity with their current pay and will not be rated; however, they will receive the full amount of the GPI. The Part 1 of the CCAS Salary Appraisal Form will document the employee receiving a "presumptive status 1" rating due to lack of time in AcqDemo.

e. Employee Moves to Another Pay Pool.

- (1) If an employee has served 90 consecutive calendar days under AcqDemo, but has moved to a new AcqDemo pay pool, the RO changes, and/or the employee has a job change from their current position to a different position before September 30:
 - (a) Both the employee and the losing RO are required to prepare a closeout assessment (addressing each factor) for use by the gaining RO to determine the recommended OCS, unless the departure occurs during the first 90 days of the rating cycle.
 - (b) The gaining RO will consider any contribution assessment provided by the employee and by their previous supervisor.
 - (c) Rate the employee based upon the contributions made in the new pay pool.
- (2) Employee will be eligible for both CA and CRI if employee departed the organization to another AcqDemo pay pool after October 1 but before the subsequent payout.

f. Employee Departs AcqDemo. Employees who move to a non-AcqDemo position; retire; resign; pass away or otherwise depart AcqDemo on or after October 1, 2025, but before the first full pay period beginning on January 11, 2026 employee will receive CA from pay pool funds if the employee and supervisor completed annual assessments. The PPM may approve any CRI awarded to the employee to be rolled over to CA, if the employee completes their self-assessment.

g. Deferred Resignation Program (DRP). The DRP allowed approved federal employees to resign with a deferred date. During this period, employees were generally not expected to work and may look for another job.

- (1) These employees will be assigned a Presumptive Status 2 and per reference b, receive a three (3) PAQL score for each factor.
- (2) Midpoint and closeout assessments are not required.
- (3) Employees who resigned through the DRP are not eligible for the CCAS payout (CRI, TOA or CA).
- (4) If the organization or PPM desires, these employees are eligible to receive non-CCAS awards.

h. H-IV at Executive Level IV Calculations. As per reference b, Section 6.7.4 (Locality Pay), the locality-adjusted pay (basic pay plus locality pay) of any employee may not exceed the rate for level IV of the Executive Schedule (5 U.S.C. 5304 (g)(1)).

- (1) For employees who have reached this rate or the value of their position, if any CRI is calculated, the CRI will rollover to CA and the employee's OCS will remain the same.
- (2) This may result in a higher or lower locality-adjusted pay to ensure the

employee does not exceed this limit or the value of their position.

- i. **Investigations.** Employees who are under ongoing investigations between September 30 and the beginning of the first full pay period in January will receive an OCS equal to their EOCS and PAQL of 3 in each factor. The GPI, CRI and CA will be suppressed during the pay pool process.

- (1) Once the investigation is completed, a modified supervisory assessment, OCS and PAQL scores, and RoR will be completed by the RO, reviewed by the SPPM, and approved by the PPM.
- (2) Any changes to the official appraisal and/or resulting compensation (GPI, CRI, CA, PAQLs, and RoR) will be retroactive and coordinated with the DAF AcqDemo PMO to update the employee records, including documenting the CCAS Salary Appraisal Form and entered into all appropriate records. Copies of all corrections will be provided to the employee and RO.

11. INADEQUATE CONTRIBUTIONS AND/OR PERFORMANCE:

- a. Supervisors have the responsibility to counsel employees as any identified deterioration of contributions and/or quality of performance becomes evident and determine if the situation is temporary or of a longer duration.
- b. Inadequate contributions and unacceptable performance may be identified at the end of the annual appraisal cycle and at any time during the rating cycle, as described in Reference b and the following diagram:

CCAS Annual Appraisal				
Annual Overall Contribution Score (OCS) Above the Upper Rail (Less Than the Expected Overall Contribution Score Range (EOCS Range)) (Overcompensated Region)			=	Inadequate Contribution
		Rating of Record Level 1 - Unacceptable	=	Inadequate Contribution
Annual Overall Contribution Score (OCS) Above the Upper Rail (Less Than the EOCS Range) (Overcompensated Region)	and	Rating of Record Level 1 - Unacceptable	=	Inadequate Contribution
During the CCAS Rating Period – One or more factor				
Contribution Score Above the Upper Rail (Less Than the EOCS Range) (Overcompensated Region)			=	Inadequate Contribution
		Performance Appraisal Quality Level (PAQL) 1 - Unacceptable	=	Inadequate Contribution
Contribution Score Above the Upper Rail (Less Than the EOCS Range) (Overcompensated Region)	and	PAQL 1 - Unacceptable	=	Inadequate Contribution

- c. Supervisors will document inadequate contribution and/or performance in a MFR in Lieu of a CIP, signed/ acknowledged by both the supervisor and employee. Supervisors will work closely with SAF/FMCX Workforce Development.
- d. The MFR will provide specific information regarding how to bring the contribution and/or performance to adequate levels.
- e. Supervisors may use Additional Feedback in CAS2Net (see Reference d for how to input) to document progress on achieving adequate levels of contribution/ performance described in the MFR.
- f. The supervisor will initiate a CIP if the employee's level of contribution or performance is still deficient after a reasonable period of intervention as outlined in the MFR. Supervisors (via SAF/AMR will support the CIP process) will work closely with SAF/AMRC servicing civilian personnel section for assistance with issuing CIPs.
 - (1) If the employee fails to improve as a result of the feedback, the Supervisor or RO will notify the local Civilian Personnel Office to review proposals to initiate a CIP in accordance with the guidelines outlined in Reference b.
 - (2) The DAF AcqDemo PMO is the advisor to the Civilian Personnel Offices for CIPs.

12. COMPLETION OF PAY POOL PROCESS AND COMMUNICATION WITH WORKFORCE:

- a. Upon completion of the pay pool process and confirmation from DoD AcqDemo Program Office that appraisals are ready for release to employees; supervisors are required to download a copy of the complete appraisal from CAS2Net to facilitate the results meeting with employees. The following steps will be taken by the supervisor.

Supervisor:

- (1) The first level supervisor must hold the results meeting with the employee and complete the documentation in CAS2Net. The second level supervisor will complete these actions in the absence of the first level supervisor.
- (2) Communicate with and explain to each employee the "Compensation Detail Block" on the first page of the Appraisal form:
 - (a) If eligible, GPI has automatically been added to their current base salary.
 - (b) Any CRI is then added to show the employee's new basic salary.
 - (c) The amount of CA (Bonus) and any carryover from CRI (if applicable).
 - (d) The first page of the appraisal form will also show the new EOCS.

- (e) Explain any remarks that may be noted e.g. Any TOAs given.
- (f) Explain there could be up to five (5) Official Personnel Actions (SF 50s) processing their adjustments, such as:
 - i. General Pay Adjustment (NOA 894)
 - ii. Regular Performance Pay Performance-based Pay Increase Provided on an Annual Cycle. (NOA 891)
 - iii. Lump Sum Rating Based Individual Cash Award–Not in lieu of pay adjustment. (Nature of Action (NOA) 886)
 - iv. Lump Sum Performance Payment Rating Based – In Lieu of Pay Adjustment due to range maximum or control point. (NOA 885)
 - v. Time Off Award (NOA 846). This could be processed up to two pay periods after the other four Official Personnel Actions.
- (3) The conversation should focus on the OCS. It is the supervisor's and pay pool's assessment of the employee's contribution.
- (4) Emphasize the system strives to encourage and reward high levels of contribution by adjusting compensation to match.
- (5) This may also be a good opportunity to reevaluate the Contribution Plans and make any appropriate modifications for the next cycle.
- (6) At the conclusion of your results meeting, annotate in CAS2Net the "Employee Review Date" and "Method of Communication" in the Annual Appraisal module.
- (7) Advise each employee of their window between 28 Jan 26 - 11 Feb 2026, where they may request reconsideration of the following:
 - (a) OCS
 - (b) Categorical and Numerical Scores
 - (c) Supervisor's narrative Annual Assessment
 - (d) RoR/ PAQLs
- b. Summary feedback will be provided to employees to permit general comparison of their results with those of the general workforce. At a minimum, the following will be provided:
 - (1) A pay pool scatterplot accompanied by data tables by career path displaying the number and percentage of employees by rail zone.
 - (2) Data tables by career path and broadband level displaying the following:
 - (a) Average OCS
 - (b) Average CRI (dollar and percent if base pay)
 - (c) Average CA (dollars and percent of aggregate pay)
 - (3) The PPM will make an assessment as to the appropriate display level of pay pool data to be provided to the workforce. Displays must not compromise the identity of employees.

13. COMPENSATION:

- a. **Pay Setting Authority:** Pay Setting Authority resides with the SAF/FMC and may not be further delegated.
- b. **Guidelines:** Pay setting should strive to compensate employees appropriately based on the value of their position and their contribution to the mission. While each position contained within a broadband level could have access to the complete range of pay options, it does not mean all jobs should be compensated at the top rate of basic pay of the broadband level. Management decisions about the appropriate compensation value of the organization's position management structure should be based on factors such as level of effort, required skills and/or certifications, labor market conditions, organization historic data, and the qualifications of the employee. All salary increases must be sufficiently justified and support the concept of pay parity across the organization.
- (1) Some aspects to consider when determining the position value and prospective base salary range include supervisor/non-supervisor status, scope of responsibility, certifications and pay parity. As AcqDemo allows for a multitude of compensation flexibilities, pay setting justification for incoming personnel should not be based or compared against the General Schedule (GS) system's pay setting (i.e., GS-12 moving to NH-III, justification for pay setting should not illustrate that pay is set comparable to competing offers at GS-13 rate).
- c. **Pay Setting:** The following table provides AcqDemo authorities for setting pay, which will be used in combination with the identified paragraph's guidelines.

IF	And New Position is in	Then Base Pay
Current AcqDemo Employee	Higher Broadband	Is increased 0 to 20% (or minimum of broadband) - See paragraph 14.b and 14.c.3
	Same Broadband	Remains the same - See paragraph 14.b and 14.c.2
	Voluntary Lower Broadband	See paragraph 14.b
New Hires/ Reinstatements	Any Broadband	See paragraph 14.b and 14.c.1
Current GS and Other Non-AcqDemo Employee	Broadband with a higher maximum base pay than employee's current position (Promotion)	Is 0 to 20% increase (or minimum of broadband) - See paragraph 14.b and 14.c.3 - WGI buy-in payments are not authorized for promotions - There is no authority to reduce base pay
	Broadband with same maximum base pay as employee's current position (Reassignment)	WGI buy-in applies (for employees eligible for WGI buy-in, pay will be higher than current salary by the amount of the WGI buy-in adjustment) - See paragraph 14.b and 14.c.2

		- If employee is offered and accepts a lower base pay than their current base pay, WGI buy-in does not apply
	Broadband with lower maximum base pay than employee's current position (Change to Lower Grade/ Broadband)	Is set within approved prospective base salary range - If employee is offered and accepts a lower base pay than their current base pay. - WGI buy-in does not apply
NOTE: Salary will not exceed the broadband range unless statutory or regulatory rules prevail.		

- (1) **New Hires/Reinstatement:** The starting pay for new employees or reinstatement eligible employees hired into AcqDemo positions may be set anywhere in the broadband; however, organizations must consider the value of the position and candidate qualifications when setting pay. If the selectee is appointed to a non-supervisory position broadband IV, salary should not be set higher than a GS-15, step 4 ~ OCS 91) without the PPM approval.
 - (a) There is no requirement to match an external candidate's current salary. The following considerations must be considered:
 - i. Candidates' qualifications, experience, academic qualifications, relevant training and certifications
 - ii. Comparable salaries
 - iii. Experience within the technical/functional area
 - iv. Local labor market conditions
 - v. Value of position
 - vi. Any other relevant factors
- (2) **Reassignments:** If eligible for WGI buy-in, salary will be subject to the same pay setting rules as those GS employees entering AcqDemo upon initial conversion. The employee's pay will not exceed the base pay range of the new broadband level, unless statutorily required. Note: There is no increase in salary, other than a WGI buy-in, if applicable.
- (3) **Promotions:** Salary can be set between 0-20%, depending on the employee's qualifications and the position being filled. A justification must be submitted to the PPM through SAF/FMCX Workforce Development..
 - (a) Since the maximum basic pay for the NH-III or NH-IV is higher than the maximum basic pay of the employees at the GS-12 or GS-14 levels, the personnel action is processed as DHA, however pay will be calculated as a promotion.
 - (b) NH to NH Promotions – to be considered for a promotion to the next Broadband Level, an employee must possess the skills and experience at the higher end within the next lower broadband (e.g., GS-11 equivalent experience within NH-II to promote to NH-III; or

GS-13 equivalent experience within NH-III to promote to NH-IV).

- (4) **Highest Previous Rate (HPR):** Pay may be set based on a higher rate of basic pay the employee received previously in another Federal job as described in Reference b, Chapter 5, Pay Administration.

d. **Value of Position:** As discussed in greater detail in Reference b, AcqDemo's CCAS links compensation (pay increases and awards) to contribution to the mission as well as the value of the position rather than longevity. While AcqDemo PRDs are classified at the upper end of each broadband level, a broadband may contain an array of positions with varying levels of work, responsibilities, and therefore value to the organization. The value of position reflects the level of expected contributions of the incumbent based on the scope and difficulty of the position. In other words, not all jobs within that broadband level should be compensated at the top rate of basic pay of the broadband level.

- i. Determination of the value of the position based on factors such as required level of effort, required skills and/or certifications, labor market conditions, and the AcqDemo discriminators and descriptors. The value of position is not based on the skills and abilities of the employee.
- ii. Value of position represents the target level of compensation within the broadband (tied to the level of expected contributions) and it is characterized with a numeric value also referred as the target EOCS (i.e. 75).
- iii. Value of position is initially set at pay setting for new hires. When filling behind a departed employee, the value of position should remain the same unless justifiable additional duties or responsibilities have been added that increase expected contributions.
- iv. When permitted (see paragraph 13.c), starting pay may be set anywhere in the broadband, but if the PPM has determined the value of position is less than the upper limit of the broadband, the value of position determines the maximum base pay. AcqDemo pay setting process provides the mechanism to compensate employees consistent with the job requirement; however, the base salary may be less than the value of position at the time of the appointment. The employee's pay progression is tied to his/her organizational contribution and value of position.
- v. Validation to the value of position is required to be conducted for all positions prior to the SPPP deliberations.

e. **Accelerated Compensation for Developmental Positions (ACDP):**

- (1) Applicable to employees who are participating in a formal training program, internship, or other developmental capacities.
- (2) ACDPs are approved by the PPM and documented through CAS2Net (see Reference d, ACDP for additional information). They may be granted a basic pay increase twice per CCAS cycle ranging from 0% to 10% per increase (see Reference b, Chapter 5 & 6 for additional information).

- (3) ACDPs will not be funded from pay pool allocations.
- (4) See also Air Force Personnel Center (AFPC) and DAF AcqDemo PMO “*Central Salary Account: AcqDemo Implementation Guidance*”, dated July 2024 regarding PALACE Acquire (PAQ) STEM positions in certain designated occupational series.

- f. Supervisory/Team Lead Cash Differential:** Supervisory or Team Leaders must be assigned the respective title, duties and responsibilities and must meet the OPM minimum percentage of time, i.e., 25%, as outlined in the statement of coverage for positions under the GS Supervisory Guide (GSSG) or the GS Leader Grade Evaluation Guide, Parts I and II. Positions not meeting these criteria are ineligible for the supervisory or team leader cash differential.
- (1) Salary inequities may exist between the supervisor/team leader and non-supervisory/non-team leader subordinates’ basic pay.
 - (2) Positions are extremely difficult to fill.
 - (3) Organizational level and scope, difficulty, and value of position warrants additional compensation.
 - (a) Supervisory differential – 0% to 10% of basic pay.
 - (b) Team leader differential – 0% to 5% of basic pay.
 - (4) A justification can be provided by the Supervisor for PPM approval using the templates provided in the [Supervisor and Team Leader Cash Differential Policy Guidance](#)
 - (5) Approval is on a case-by-case basis.
 - (6) To receive a supervisory cash differential, a supervisor must be compliant with their Supervisor Training Refresher training every three years. For new supervisors, the initial Supervisor Training must be completed within 6 months of entry to his/her supervisory role. NOTE: Employees not current on their training are not eligible for differential.

14. CLASSIFICATION AUTHORITY: PRD classification authority for SAF/FMC & AFCAA positions reside with the DCO as identified below and in the Delegations of Authority at Attachment D. The use of the current DAF PRD form will be used when developing new positions descriptions.

- a. DCO authority must be retained at subordinate management levels to a level not lower than one management level above the first-line supervisors of the position under review, except in the case of those employees reporting directly to my position SAF/FMC.
- b. Individuals granted classification authority must receive appropriate training from the DAF AcqDemo PMO on the classification process.
- c. Position Review Upgrades. The existing classification process is utilized in the event a position evolves to include higher broadband level of duties resulting in

an accretion of duties promotion (i.e. position review/upgrade). Position upgrades are rare and require a higher level of scrutiny. The higher-level review and approval is retained at the SAF/FMC level who will follow the Reference e when making the determination.

15. ACQDEMO DIRECT HIRE AUTHORITY (DHA). Is the primary hiring flexibility for AcqDemo positions.

16. SELECTION OF VACANT SUPERVISORY POSTIONS: Each leader should consider candidates by canvassing either internal to their organization or DAF-wide. Any supervisory selections must be approved by SAF/FMC. Selection Committees for supervisory positions are highly recommended. SAF/FMC will approve non-competitive selections for supervisory positions and the “Non-Competition Selection for Supervisory Position” form at Attachment G will document the approval.

ATTACHMENT A

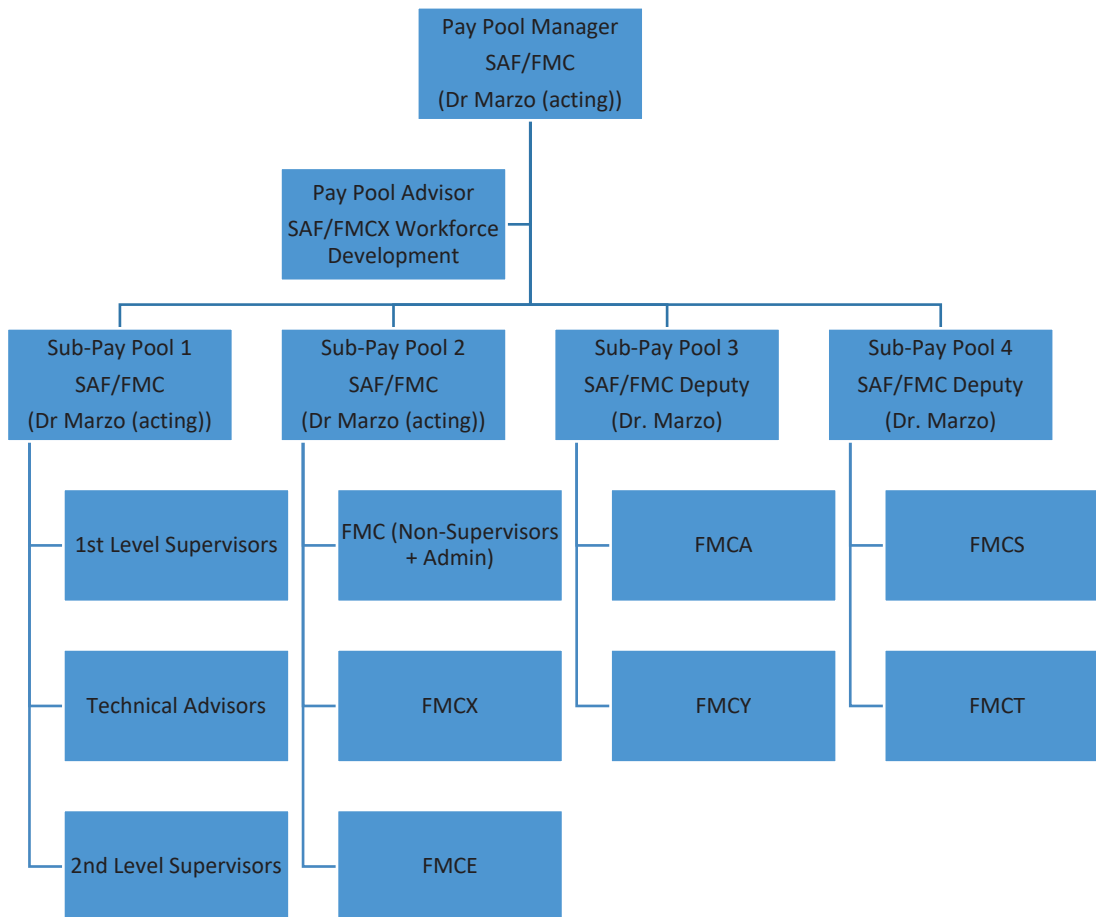

PPA Responsibilities and Workload

PPA RESPONSIBILITIES/WORKLOAD THROUGHOUT THE ACQDEMO CYCLE	
As an administrator, you control access to appraisal modules at certain times of the year, generate and view reports, maintain user/organization data in CAS2Net, and use the offline interface to move data to and from the sub-panel and CMS.	
During the year	
1	Communicate schedule and upcoming AcqDemo events.
2	Distribute notifications issued from the AcqDemo PMO to the PPM and the Organization Pay Pool Management Advisor.
3	Provide CAS2Net support within assigned pay pool/sub-pay pool.
4	Track and report status of new FY contribution plans for employees entering AcqDemo throughout the year, or when a change in relationship happens between a supervisor and employee (6.14.2).
5	Track and report status of closeout assessments are required, upon a change of supervisor (6.19).
6	Maintain CAS2Net database with manual updates, as needed. • Add/update/delete employee and supervisor records using bi-weekly. • Manage pay pool hierarchies. • Manage CAS2Net roles within assigned pay pool. • Resolve DCPDS-CAS2Net discrepancy reports within seven (7) days, when received from CAS2Net Pay Pool Notices.
7	Inform AcqDemo PMO with changes to pay pool (i.e. Facilitator, SuperUser, PPA, PPM, SPPM).
January – March	
1	Provide support to employees and supervisors and track employee reconsiderations/grievances of pay pool results.
2	Track and follow-up with supervisors to have both the supervisor and employee sign the new Salary Appraisal Form in CAS2Net.
3	Contact the local CPF representative or AFPC and DAF AcqDemo Office to assist with CRI and/or CA changes for grievance employees or administrative corrections
4	Prepare lessons learned from previous year's pay pool process.
5	Support, as requested, the release of CCAS information (6.23) to the workforce.
April – June	
1	Monitor midpoint review sessions.
July – September	
1	Ensure compliance with DAF, Headquarters, PPM or SPPM tasking/requests.
2	Provide support to employees and supervisors in completing their annual CAS2Net self-assessments.
3	Track and report self-assessment and supervisor completion rate.

October – December	
Post Cycle Activities	
1	Employees joining AcqDemo. review the Employee Movement Matrix (Appendix I - Rating Official Change and Employee Movement Matrix) to determine the proper actions within CAS2Net.
2	Employees promoted into/out of AcqDemo. Review the Employee Movement Matrix (Appendix I - Rating Official Change and Employee Movement Matrix Table 2) to determine the proper actions within CAS2Net.
3	Employees leaving AcqDemo. Review the Employee Movement Matrix (Appendix I - Rating Official Change and Employee Movement Matrix Table 3 and 4) to determine the proper actions within CAS2Net between AcqDemo pay pools: After an annual assessment is approved, use the CAS2Net transfer function to transfer the user's record out of current organization.
4	Track and report status of new FY contribution plans.
5	Track and report progress of employee self-assessment and supervisor assessment and scoring completion.
Pay Pool Panel (PPP) & Sub-Pay Pool Activities	
1	Develop pay pool and sub-pay pool schedules.
2	Prepare and distribute sub-pay pool binders to the PPP members.
3	Arrange and facilitate or support the pay pool and sub-pay pool meetings.
4	Download latest version of pay pool Compensation Management Spreadsheet (CMS) and sub-pay pool spreadsheets from CAS2Net in Pay Pool Notices.
5	Prepare the CMS for main pay pool and sub-pay pool spreadsheet for the sub-pay pool.
6	Complete 'round trips' during pay pool and sub-pay pool meeting into/out of CAS2Net.
7	Maintain and update the CMS based on post-cycle activities through the first pay period of the new year.
8	Notify SuperUser(s) once final CMS is loaded.
9	Ensure PPM has appropriate data and reports.

DELEGATIONS OF AUTHORITY

Function	DoD AcqDemo Operations Guide Delegation paragraph and direction	Pay Pool 4443 Delegation
1) Pay Setting Authorities		
a) Current AcqDemo employees	<u>5.10 Promotion - AcqDemo to AcqDemo:</u> A promotion occurs when an AcqDemo employee moves from his/her current broadband level to a higher broadband level within the same career path (e.g., NK-I to NK-II), or a different career path and broadband level in which the new broadband level has a higher maximum basic pay than the broadband level <u>from</u> which the employee is being moved. <u>5.10.1.2.6</u> However, if the minimum rate of the employee's new broadband level is more than 20 percent greater than his/her current basic pay, then the minimum rate of the new broadband level is the new basic pay.	Pay setting approval authority for promotions of current AcqDemo employees being promoted is delegated to: PPM – SAF/FMC
a) New hires/ reinstatement eligibles	<u>5.16.1.3 New Hires.</u> Depending upon their organization's business rules on pay setting, the selecting official may approve or recommend basic pay increases within a range of zero percent not to exceed a 10 percent increase above the minimum of the broadband. However, recommended increases above 10 percent not to exceed the maximum basic pay for the broadband level must be approved by a designated management official at least one level above the recommending official, or approved as directed by organizational guidance. <u>5.16.2.3 Reinstatement Eligible Hires.</u> Depending upon their organization's business rules on pay setting, selecting officials may approve or recommend basic pay increases within a range of zero percent not to exceed a 10 percent increase over a selectee's current salary. Recommended increases above 10 percent not to exceed the maximum basic pay for the broadband level must be approved by a designated management official at least one level above the recommending official, or approved as directed by organizational guidance.	Pay setting approval authority for new hires and reinstatement eligibles is delegated to: PPM – SAF/FMC
b) Non-AcqDemo Employees entering into AcqDemo	<u>5.10.1.2.6 Promotion – Non AcqDemo to AcqDemo:</u> When setting pay for a promotion action, either permanent or temporary, consideration must be given to both the value of the position and the selectee's expected level of contribution in the new position. The basic pay for a permanent or	Pay setting approval authority for non-AcqDemo employees entering AcqDemo as a promotion is delegated to: PPM – SAF/FMC

Function	DoD AcqDemo Operations Guide Delegation paragraph and direction	Pay Pool 4443 Delegation
	temporary promotion action will be set within the broadband level for the employee's new position, starting at 0% not to exceed 20% of the employee's current basic pay. However, if the minimum rate of the employee's new broadband level is more than 20 percent greater than his/her current basic pay, then the minimum rate of the new broadband level is the new basic pay. The employee's basic pay shall not exceed the maximum basic pay range of the new broadband level.	
c) Voluntary Change to lower broadband	<u>5.19.2.</u> When an employee accepts a voluntary change to a lower broadband level or a different career path, basic pay may be set at any point within the broadband level to which assigned, except that the new basic pay will not exceed the employee's current basic pay or the maximum basic pay of the broadband level to which assigned, whichever is lower. Upon request for or acceptance of a change to a lower broadband level or different career path, the employee will be required to provide a written statement acknowledging voluntary acceptance and understanding of the influence of such a move on pay and benefits. This paragraph does not apply to promotion actions.	Pay setting approval authority for Voluntary Changes to Lower Broadband is delegated to: PPM – SAF/FMC
e) Supervisory/ Team Leader Cash Differentials	<u>5.21.3.1</u> To request a supervisory or team leader cash differential, a request package is initiated by the immediate supervisor, coordinated with the servicing HR Specialist, and approved/disapprove by a higher-level supervisor, manager, or equivalent as determined by the Participating Organization's business rules. The approval authority may also be assigned to the Pay Pool Manager/Panel or Personnel Policy Board. <u>DAF Guidance:</u> "Updated DAF AcqDemo Supervisory and Team Leader Cash Differentials References and Job Aids" (12 Oct 2023 email)	Supervisory/ Team Leader Cash Differentials approval authority is delegated to: PPM – SAF/FMC
2) Classification		
a) Classification Authority	<u>3.3.</u> Under AcqDemo, Heads of Participating Organizations (or equivalent) will have delegated classification authority and may re-delegate this authority to subordinate management levels to a level not lower than one management level above the first-line supervisor of the position under review, except in the case of those employees reporting directly to the Head of the Participating Organization or equivalent. Individuals granted	- The Head of the Participating Organization retains the classification authority for positions reporting directly to them. - Classification authority for the remaining positions is delegated to:SAF/FMC Deputy and it is <u>not</u> further redelegated.

Function	DoD AcqDemo Operations Guide Delegation paragraph and direction	Pay Pool 4443 Delegation
	classification authority must receive appropriate training on the classification process. <u>DAF Guidance</u> : The DAF AcqDemo PMO is the only authorized training source.	
b) Position Upgrades	<u>DAF Guidance</u> : Reference e.	The Head of the Participating Organization (SAF/FMC) retains approval authority for all position upgrades.
3) Time Off Awards (TOA)	<u>6.7.3.2 Converting Contribution Award to TOA</u> In accordance with local business rules, the pay pool administrator will convert the approved contribution award to time-off award as requested by an employee and as approved by the pay pool manager using the employee's new hourly rate.	TOA approval authority remains with the PPM – SAF/FMC.
4) Accelerated Compensation for Developmental Positions (ACDP)	<u>6.20.3.d) Pay Pool Managers or other Designated ACDP Approver</u> . Utilize the program consistent with the criteria and guidance issued by their personnel policy board or equivalent board. Review and approve an employee's ACDP Assessment. Establish and approve amounts of individual ACDP basic pay increases. <u>6.20.5 Documenting, Approving and Paying an ACDP Basic Pay Increase</u> <u>b) Approving</u> The level of final approval for the ACDP Assessment is determined by each AcqDemo Participating Organization and described in its business rules.	- Approval Authority for Accelerated Compensation for Developmental Positions is delegated to: a) SAF/FMC retains this authority, and it is not further redelegated.
5) Non-CCAS Awards		
a) Non-CCAS Awards (Funded with the 10% CA set-aside)	To provide additional flexibility in motivating and rewarding individuals and groups, some portion of a Participating Organization's award budget will be reserved for special acts and other categories as they occur. Awards may include, but are not limited to, special acts, patents, invention awards, suggestions, exemplary personal effort, and on-the-spot. The funds available to be used for these traditional Title 5 U.S.C. awards are separately allocated within the constraints of the organization's budget. 6.7.3 Contribution Award (CA) Fund b) 10% or more of the total CA award budget will be set aside (made available) for nonCCAS awards throughout the year (i.e., on-the-spot and group awards). *DODI 1400.25V451_DAFI 36-1004 The Air Force Civilian Recognition Program outlines the	- Organizations are required to follow approval authority IAW Reference c. a) The non-CCAS funding of 10% is approved and obligated by the PPM.

Function	DoD AcqDemo Operations Guide Delegation paragraph and direction	Pay Pool 4443 Delegation
	delegations of authority and process for non-CCAS awards	
b) Service Acquisition Executives (SAE) Award	<u>5.24</u> The Service Acquisition Executives (SAE) of AcqDemo Participating Organizations will have the authority to approve an individual cash award not CCAS rating based within a range between \$10,000 not to exceed \$25,000. This special act award may be granted to covered employees in accordance with DAF instructions.	This authority is not delegated. All SAE Awards will be coordinated with the DAF AcqDemo PMO for SAE approval.
6) Sabbaticals	<u>8.4.1</u> Local authority to implement this portion of the demonstration project will rest with the Commander, Executive Director, or equivalent, or his/her designee.	6) Sabbaticals approval authority is PPM – SAF/FMC - It is the intent of our pay pool to not utilize this AcqDemo flexibility.
